

Bird Solution Services

NPDH's bird control services will provide surveyor(s) visiting your company or factory site to prepare installation plans to reach **'the highest efficiency of protection'**

Free! Location Survey
(Distance within 130 km from Bangkok)

Resurvey in next year after installation

Providing suitable prevention method again in present situation

Install Bird Prevention Tools

| Option | Advantage |
|--------------|---|
| B-ST Gel | Discourage birds from landing, perching, and roosting on treated surfaces but some ingredients are toxic to animals & humans. |
| Rubber Spike | Birds cannot land on, made from rubber but lightweight, capable to place anywhere. |
| Netting | To prevent birds entering between the gap or enter gate. Able to install on specific areas based on location survey, no need to use for a whole building. |

B-ST Gel

Netting

Rubber Spike

Free! Location Survey (Distance within 130 km from Bangkok)

After completing survey, you will receive report which mentioned recommend installation area, practical methods, price, and installation fee which helps you making a decision easier.
